SUBJECT INDEX

Amrinone, Reduction of lethal toxicity of doxorubicin by —, 515
Anticancer drugs, Studies on hemopoietic stem cells in mice treated with testosterone propionate and —, 277
Antithrombin III, Behavior of —, determined as protein concentration and biologic activity, in subjects with neoplastic disease, 205
Asbestos, Lung — bodies and pulmonary cancer in subjects without occupational exposure, 359
Basal cell carcinoma, — of the skin metastatic to bone, 451
Bile-duct carcinoma, Caroli's disease and —. Report of a case, 549
Bladder cancer, A study of the etiological factors of bilharzial — in Egypt. 4. β-carotene and vitamin A level in serum, 19
——, A study on the etiological factors of bilharzial — in Egypt. 6. The possible role of urinary bacteria, 23
Bleomycin, Evaluation of lung ventilation and carbon monoxide-diffusing capacity in patients with nonseminomatous testicular tumors treated with —, 85
——, Acute — and methotrexate toxicity. Report of two cases, 355
Breast cancer, C_{1q} solid-phase enzymatic microassay for detection of circulating immune complexes: Its application in human —, 47
——, Behavior of human — tumor cells in vivo on chorioallantoic membrane. A preliminary report, 53
——, Estrogen receptors and response to chemotherapy in advanced —, 67
——, Trattamento radiante elettivo del carcinoma mammario, 73
——, Tamoxifen therapy in advanced — with positive estrogen receptors in postmenopausal women, 143
——, Esophageal involvement in —. Report of six cases, 149
——, Bilateral cancer of the breast, 155
——, Clinical response to chemotherapy and hormone therapy as first treatment after therapeutic ovariectomy in advanced — patients, 161
——, Histological typing of — tumors, 181
——, Oophorectomy in advanced —: Clinical radiologic correlations, 211
——, The LAI test in specific immune-reactivity studies of fibrocystic — disease, 291
——, Surgery for malignant mesenchymal tumors of the —. A series of 31 cases, 325
——, A case of pancreatoduodenectomy as resolutive for a solitary metastasis of —, 331
——, Correlation between levels and dehydroepiandrosterone-sulphate and prolactin in human — cyst fluid, 393
——, Effects of opiates and naloxone on certain enzymes of carbohydrate metabolism in human — carcinomas, 397
——, Variations according to patient-age in certain histopathological parameters in cancer of the —, 403
——, Problems of fine-needle aspiration biopsy cytology of clinically or mammographically uncertain — tumors, 407
——, Pulmonary localization of phosphate bone agents in a case of metastatic — carcinoma, 413
Calcitonin, Role of — assay as neoplastic marker, 295
Carbohydrate metabolism, Effects of opiates and naloxone on certain enzymes of — in human breast carcinomas, 397
Carcinoembryonic antigen, Delayed cutaneous hypersensitivity reaction — in cancer patients, 473
——, (CEA) in the follow-up of disease-free breast cancer patients, 477

Carcinogenesis, Lack of oncogenic activity of doxorubicin and daunorubicin in BALB/c mice, 1
——, Effects of long-term intake of DDT on rats, 11
——, Lack of carcinogenicity of DDT in hamsters, 5
Cardiotoxicity, Evaluation of doxorubicin — in patients treated with beta-methyldigoxin, 349
——, Cardiac toxicity of 5-fluorouracil: A study of 1083 patients, 505
Cervical carcinoma, Investigation of possible changes in the detection of — in patients of Dutch general practitioners, 299
Chemotherapy, Estrogen receptors and response to — in advanced breast cancer, 67
——, Combination — (CVP or CHOP)-radiotherapy approach in early stage non-Hodgkin's lymphomas, 137
——, Clinical response to — and hormone therapy as first treatment after therapeutic ovariectomy in advanced breast cancer patients, 161
——, of advanced non-Hodgkin lymphomas: A report of 35 cases, 307
——, Randomized trial of chemoimmunotherapy in advanced non-oat-cell lung cancer, 527

Copper, Serum — level in non-Hodgkin's lymphomas, 57
Cutaneous hypersensitivity, Delayed — reaction to carcinoembryonic antigen in cancer patients, 473
Cylindroma, Degree of malignancy of maxillary sinus — in relation to histologic characteristics, 127
Cytology, Problems in fine needle aspiration biopsy — of clinically or mammographically uncertain breast tumors, 407
Daunorubicin, Lack of oncogenic activity of doxorubicin and — in BALB/c mice, 1
DDT, Lack of carcinogenicity of — in hamsters, 5
——, Effects of long-term intake of — on rats, 11
Doxorubicin, Lack of oncogenic activity of — and daunorubicin in BALB/c mice, 1
——, Evaluation of — cardiotoxicity in patients treated intermittently with beta-methyldigoxin, 349
——, Reduction of lethal toxicity of — by amrinone, 499
Endometrial carcinoma, Estradiol and progestin receptors, 17-β-hydroxysteroid-dehydrogenase and histopathologic grade in —, 217
——, A retrospective analysis of 53 patients with pathologic stage II and III —, 341
Epidemiology, Comparative completeness and correspondence of cancer mortality data as collected by ISTAT and by cancer registries, 457
Esophagus, Esophageal involvement in breast cancer. Report of six cases, 149
4'-epi-doxorubicin, A comparison of the lethal and kinetic effects of doxorubicin and — « in vitro », 29
——, Toxic and therapeutic activity of —, 105
——, Phase II study of —, 431
5-fluorouracil, Pharmacological data and technical feasibility of intraperitoneal — administration, 437
